

ACCANTO SPOT SQUARE

wall light, LED, 3000K, square, black shade, max. 24W

The ACCANTO SPOT SQUARE offers a mixture of steel and textile elements. Besides the main light source it is equipped with a 1 W LED reading light in warm white light colour. There are two switches for individual control of both light sources installed which fit in with the overall design. With the beam angle selected for the LED reading light, it is almost glare-free and thereby ensures a comfortable light which relaxes the user. Thanks to the tilting and swivelling joint piece, the LED can be appropriately aligned. The E27 lamp socket, behind the main lamp shade as well as the built-in LED converter, means that the ACCANTO SPOT SQUARE is ready for direct connection to the 230V mains supply. The luminaire contains built-in LED lamps.
