

LED DOWNLIGHT PRO R

recessed fitting, 2700K, round, white, 12W, incl. LED disk module 800lm

The LED DOWNLIGHT PRO is a combination of an aluminium housing and most efficient LED technology from PHILIPS. With a low power consumption despite its high luminous flux and its neutral white or warm white LED light colour, the LED DOWNLIGHT PRO R can also be equipped with high-intensity halogen or incandescent lamps. The LED module is interchangeable. Thanks to the LED driver integrated in the module, the LED DOWNLIGHT PRO R is ready for direct connection to the 230V mains supply.
