

LED DOWNLIGHT PRO S

recessed fitting, 2700K, Frameless, square, white, 12-W, incl. LED disk module 800lm

The LED DOWNLIGHT PRO S is a combination of an acrylic covered aluminium housing and most efficient LED technology from PHILIPS. With a low power consumption despite its high luminous flux and a neutral white or warm white LED light colour, the LED DOWNLIGHT PRO S can also be equipped with high-intensity halogen or incandescent lamps. The frameless design of the recessed fitting allows flush use in hollow ceilings. Thanks to the LED driver integrated in the module, the LED DOWNLIGHT PRO S is ready for direct connection to the 230V mains supply.
