

POLE PARC

outdoor floor stand, TC-L, IP44, anthracite, Ø/H 14/200 cm, max. 55W

The aluminium floor stand POLE PARC is particularly appropriate with its size for the illumination of extensive gardens and parks. By the obliquely directed lamellae of the integrated grid a very effective illumination of the environment is achieved. It is suitable for use outdoors thanks to its IP44 protection class. The electrical connection is made directly to the 230V mains supply with the help of the built-in ballast. A concrete anchor set is supplied with the luminaire for simplified installation.
