

MAKE01

outdoor light and sound object, IP55, tetrahedron, black

Allow yourself to be fascinated by the tetrahedral Light and Sound Pyramid. The light pyramids are available in black and white and can be controlled in various ways (e.g. via DMX, Bluetooth or using an App). The powerful, integrated LED system allows colour control of up to 16.7 million colours which can be adjusted to pulse in time with the beat of the music. The specially developed polypropylene mixture with nano coating ensures that the well-known lotus effect is present and provides reliable protection against rain, heat and cold as well as UV radiation. When the device is optimally positioned, one pyramid can cover a sound area of up to 75 square metres.
