

RUSTY PATHLIGHT

outdoor floor stand, energy-saving lamp, GX53, IP44, rusted iron, max. 9W

The directly radiating floor stands of the RUSTY PATH-LIGHT series convince by their exceptional rust look. This is achieved by a special chemical treatment of the FeCSi steel used, which produces a controlled rust layer on the surface, which protects the actual material from further corrosion. This makes the luminaires unique pieces and an absolutely special feature wherever they are installed. It is suitable for use outdoors thanks to its IP44 protection class. As an option an earth spike as well as a connection box for safe electrical connection to the rectangular luminaire upright, are available. The connection of the two versions available is made to the 230V mains supply.
