

## PHOTONIA

pathway and floor stand, A60, round, anthracite, clear glass

The PHOTONIA floor stand is made of aluminium and clear glass which completely encloses the lamp. Thanks to the position of the built-in socket, the mounted luminaire produces a homogeneous cone of light and is ideal for use as a pathway light. As an option, a concrete anchor and connection box are available. With protection class IP55, it is suitable for outdoor use. The electrical connection is made directly to the 230V mains supply.
