

LED AR111

CREE XT-E LED, 15W, 140°, 4000K

High-performance LED LV reflector lamp as an ideal replacement for LV halogen lamps with G53 socket. This LED lamp is also ideal for use in general lighting applications. LED spots produce a neutral light beam and are ideal for use as accent and room lighting. LED lamps are compatible with most existing lights with a G53 socket and have been developed specially as replacements for halogen bulbs. LED lamps provide increased energy savings and much lower maintenance costs. As is the norm with low-voltage lamps, a conventional transformer is needed for operation. The product has an energy efficiency index of A. The weighted consumption is 16kWh/1000h.
