

## A60 RETROFIT LED

lamp, E27, 2700K, 12W, dimmable

Warm-white does not always need to be associated with high costs. The 12W bulb offers you the same colour of light as a conventional lamp with the advantage that it consumes less energy. In addition to this there is the possibility for infinitely variable dimming and the long service life. The product has an energy efficiency index of A+. The weighted consumption is 13kWh/1000h.
